COMMENTS: Although stateside installations have Independent School District (ISD) schools on base, many schools serving military connected students are located just outside military installations. These elementary, middle, and high schools can serve up to 95% of a military-connected student population. Many other families living in off-base school communities can comprise a significant percentage of a schools population. In Hawaii and Alaska, we take these students into consideration when developing programs and services.

In our overseas locations, DoDDS Pacific/DDESS Guam has command representation on the SAC, IAC, DAC, and ultimately the DEC.

On Oahu, a unique joint service/Hawaii Department of Education (DOE) partnership exists called the Joint Venture Education Forum (JVEF). The Hickam AFB MSG/CC and the PACAF A1 sit as board members of this group, which is co chaired by the Hawaii DOE Superintendent and the PACOM 11

AFB MSG/CC and the PACAF A1 sit as board members of this group, which is co-chaired by the Hawaii DOE Superintendent and the PACOM J1.
